**HAND-DELIVERED AT 9/27/12 BOARD MEETING**

RE: Petition to "Save Quarterly Membership Meetings and Bi-monthly Director/Member Exchange Meetings"  
Records Request for Membership List (CD version)

Dear Mr. Coleman:

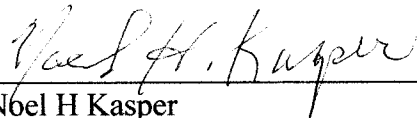

According to Board Policy No. 5, I have hand-delivered this letter to the Board requesting a petition sponsored by me and Anne Randall Stewart that will bring to a membership ballot vote saving the Quarterly Membership meetings and the Bi-monthly Director/Member Exchange meetings that the board is planning to take away.

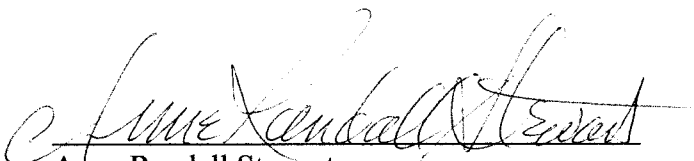

If the board discontinues its plans to take away these forums, we will cancel the petition drive. However, we need a publicized cancellation, or we must proceed. This petition request shall stop any imminent plans for the passage of any motions that would remove the forums.

The RCSC was established for the benefit of the members whose action prevails in a dispute between the board and the members as it relates to bylaws and board policies. It is our view that the board is overreaching its authority to remove forums where membership input can take place. Membership meetings are not intended to be socials providing "FREE entertainment and food". These meetings are for the purpose of overriding the actions of an unpaid, volunteer, layman board of directors when they go astray. If no one attends the meetings, then so be it. But, the members need the forums and it is inappropriate for the board to interfere by removing these forums and opportunities for membership participation.

We thank you for listening to our concerns that we believe are shared by the Members. It is the obligation of the members to stop the board when they violate membership trust by removing membership power.

Sincerely yours,
